

NORTHSTAR SLAB ROLLERS

North Star Slab Rollers are made in two series: The Standard series used by hobby potters and students everywhere and the massive Super series, at home in industrial, institutional and production settings around the world. The most obvious differences are these: Standard machines are made in '18", 24" and, 30" widths. They have rolls 2 1/2" in diameter, tables are 48" long with the roller in the center and the handle drives the bottom roll directly. Super machines are much heavier, tables are 72" long, rolls are 4" in diameter, there is a 4.33:1 steel gear reduction between handle and roll. They are made 24", 30" and 36" wide, and they come only with a Wagon Wheel handle.

All North Star machines have two rolls, much like the wringer of an old-fashioned washing machine. Both rolls have a small diamond pattern ("knurling") machined directly into the metal to grip the canvas. The bottom roll is turned by the handle, but cannot move vertically. As it turns, it drives the top roll through a train of gears. The upper roll both turns and can be adjusted up and down. The two rolls turning together pull slabs through easily, and the vertical adjustment of the top roll gives an easy-to-set and infinitely adjustable thickness from paper-thin to over 2 inches. A reference scale allows setting and repeating openings to within 1/100 of an inch. The design gives great flexibility in making slabs. Very thin, translucent porcelain slabs and thick, heavily textured architectural slabs are equally easy. A wide variety of other texturing materials and objects can be passed through the machine along with the clay. Slabs can be rolled either direction or reversed on all North Star machines.

HEAVY DUTY MODELS

SUPER SERIES	PRICE
SUPER 24 PKG.	\$1,389.99
SUPER 30 PKG.	\$1,749.99
SUPER 36 PKG.	\$2,159.00

LIGHTER DUTY MODELS

STANDARD SERIES	PRICE
18" Slab Roller Only	\$589.95
24"	\$929.95/Pkg.
30"	\$1,029.95/Pkg.

* Package includes Leg Kit ** Table Tops Available Separately

PORTABLE SLAB ROLLER

Over 4' long, yet lightweight and easy to carry (it takes only one trip to carry the table & the roller.) Roller and table weigh less than 50lbs.

PRICE \$589.95

STUDIO & CLASSROOM WORKTABLES

These very strong worktables can support 600 lbs on each surface for a total of 1200 lbs.

Here again, versatility is North Star's hallmark. They can be ordered; with or without the bottom shelf. They can be ordered with one or two end wings or as shown here without end wings. Several tables can be locked together using spacer kits which can be furnished at no charge. Overall dimensions of table as shown: 50" long x 28" wide x 36" high.

PRICE \$519.99 w/ Bottom Shelf
\$379.99 w/o Shelf

Blank Wing \$129.99
Bucket Wing \$139.99
