

PETER PUGGERS & MIXERS 1

4/1/16

PM-50 PUGGER/ MIXER

The PM-50 is the only mixer or pug mill that you will ever need. The Peter Pugger PM-50 does the work of both! This pugger mixes 50 pound batches at a time. The large hopper makes the Peter Pugger easy to load. Short mixing times yield up to 300 pounds of clay mixed from scratch, or up to 1,200 pounds of pugged clay per hour. The safety shut-off on the lid keeps hands safely out of the way of rotating parts. Many potters say that the finished product is so compact that wedging is seldom necessary. This is a great tool for schools and serious potters. It uses a 2 hp 208 volt to 230 volt 1 phase 12 amp motor and produces a 3" round output.
Price \$4,899.00 plus freight

VPM-60 VACUUM POWER WEDGER

The VPM-60 combines the capability of batch mixing with the convenience of a pugmill output and the ease of vacuum deairing. VPM-60 features stainless steel construction, a large hopper and output. But the VPM-60 also offers de-airing of the clay with the help of a 1/3 horsepower vacuum pump. Price \$6,999.00 plus freight.

VPM-60TE VACUUM POWER WEDGER

The VPM-60TE combines the capability of batch mixing with the convenience of a pugmill output and the ease of vacuum deairing. VPM-60TE features stainless steel construction, a large hopper and output. But the VPM-60TE also offers de-airing of the clay with the help of a 1/3 horsepower vacuum pump. It also comes with an upgraded motor, aggressive auger, variable speed control, upgraded structural, tile nozzle and guide plates. Price \$8,308.00 plus freight.

PM-100 PUGGER/MIXER

This is the mega pugger! The PM-100 is the only mixer or pug mill that you will ever need. The Peter Pugger PM-100 does the work of both! This pugger mixes 100 pounds of dry clay (plus water) at a time. The large hopper makes the Peter Pugger easy to load. Short mixing times yield up to three hundred pounds of clay mixed from scratch, or up to ONE TON of pugged clay per hour. Many potters say that the finished product is so compact that wedging is seldom necessary. This is a great tool for schools and serious potters. This is the "Binford" of pug mills! It has a 3 hp motor which uses a voltage from 208 to 230 1 phase which draws 16 amps. Produces a 4" round output.
Price: \$6,179.00 plus freight

VPM-7 POWER WEDGER

The VPM-7 has arrived. With all the bells and whistles, and a price that competes with the standard "offshore" pugmills, the compact VPM-7 does it all. Any clay that has not been fired can be reclaimed in the VPM-7. Stainless Steel: Shaft, augers and paddles of stainless steel, along with aluminum mixing/pugging chamber ensures rust-free clay processing. Large Hopper: The oversized hopper door allows for easy loading of up to 14 lbs. of clay per batch. Batch Mixing Capability: Full batch mixing and blending capability allows for moisture adjustment before pugging. PRICE \$3,229.00 STAINLESS \$4,099.00 Optional Stand \$250.00
