GLECO TRAP

The Gleco Trap provides you with an economical plumbing trap that is easily installed and maintained. The Gleco Trap is connected below the sink and collects solids in a bottle, which has a fill line. When the solids reach the fill line, the trap is drained through a valve, the bottle is exchanged with a replacement bottle, the valve shut and the trap is back in service. Bottle exchange is rapid and done without the need of tools (less then 2 minutes!). Most of all, there is no mess and less chance of water spillage.

REPLACEMENT BOTTLES
(Set of Six)

| MODEL | PRICE |
