

PLASTI-BAT®

Plasti-Bat® was designed by studio potters to be a versatile, long-lasting, high quality bat that is virtually indestructible! Made of 1/4" - 3/8" thick, very rigid, high impact plastic, they will provide continuous use, will not splinter, delaminate, swell or shrink. They are easy to clean and are impervious to water and most chemicals. Plasti-bats drilled with pin holes have one oblong hole for a better fit on your AMACO or Brent wheel. The holes will remain just as drilled and will not become oversized with use. The surface is a non-absorbent, positive adherence surface that does not allow clay to slide or turn loose while centering. Plasti-bats are light-weight, easy to stack, carry and store. Pots removed from a Plasti-bat® have a totally smooth, clean surface.

Plasti-bat with bat pin holes. For use with any AMACO or BRENT wheel. NOTE: 8" and 10"

12" diameter	PRICE	\$16.50

ADAPT-A-BAT

Designed to accommodate the needs of the artist with a small work space, these bats adapt instantly and allow the use of 8" and 10" bats on 12" and 14" wheel heads that are not drilled to accept smaller size bats. Adapt-A-Bats are constructed from specially formulated tough plastic to provide rigidity and tolerance for extended thread life. Send bat pin head diameters and distance between hole centers when ordering Adapt-A-Bat1M with bat pin holes.
